*Dear Constituent,*

**RE: REFORMING DISABILITY BENEFIT ASSESSMENTS - EDM 19**

Thank you for your recent correspondence in respect of your concerns regarding disability benefit assessments and EDM 19. I have read your comments on this issue with interest.

I firmly believe that the benefits system should support the people who need it most. The Health and Disability Green Paper and subsequent consultation considered how to improve the Department for Work and Pensions' (DWP) current services so they are better and easier to use, how extra support can help people navigate the system, and what more can be done to better support disabled people into employment. I understand that a white paper is expected later this year and I will certainly follow developments closely.

I am encouraged that one of the DWP's aims is to improve the assessment process for financial support. This will ensure it is as simple as possible and people can clearly understand the reason for, and approach to, an assessment, what evidence to provide, and the outcome received.

I know that the DWP are also committed to building transparency and consistency in the delivery of assessments and in their outcomes. A more personalised service would stop people having to repeatedly provide information or attend unnecessary repeat assessments.

Finally, my ministerial colleagues are determined to deliver reforms that are developed through close collaboration with disabled people and I look forward to the Government's response and detailed proposals in due course.

Once again, thank you for having taken the time to contact me and if I can ever be of any further assistance to you then please do not hesitate to contact me again.

*With best wishes,*
