Dear Councillor Latta,

RE: PLANNING APPLICATION 14/00094/OUT.

As you might be aware, I submitted an objection to the above planning application on the 28th March 2014, in light of very considerable concern being raised with me by residents of both Cottingham and Middleton. I enclose a copy of my original letter of objection, for ease of reference.

Obviously, some considerable time has passed since submitting that objection, but significant local concern endures – as evidenced by the correspondence and feedback that I receive from local people as part of my *Listening Campaign*.

I wanted to let you know, therefore, that my objection still stands and as I understand it, the application has been recommended for ‘refusal’ and will be determined by your Committee on the 20th January 2015.

I very much welcome the officer’s recommendation, for the reasons set out previously, and I hope that local wishes will be respected and councillors will reject this application.

Yours sincerely,
